About me

After graduation, within my 6 years of hospital experience I gained immense experience in medical device technical service, calibration and inventory management.

In the last 5 years of my 8-year period at SGK and TITCK on regulation, reimbursement and international legislation, I took part in many pioneering studies as a manager which steered the sector.

Finally, I continue to contribute to studies in the field of health within Aselsan-UGES.

Work Experience

2021- ● Aselsan - UGES

Life Support and Diagnostic Systems Program
Manager

2017 ● Turkish Medicines and Medical Device Agency

Vice President of Medical Devices and Cosmetic
Products
